

Homeschool Days

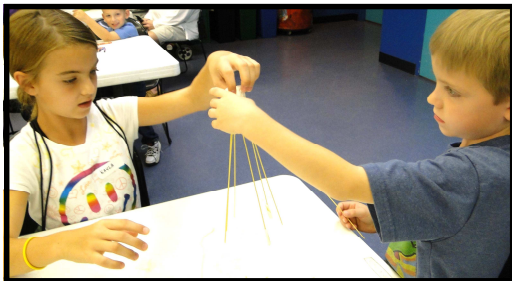

Our monthly 'Homeschool Day' events take place on the 2nd Tuesday of each month and the

following Thursday! This exciting day offers homeschool families a fun-filled opportunity to explore educational exhibits, activities, and programs. Students learn together with their families, taking advantage of museum materials and knowledgeable education professionals.

Workshops are based on the Next Generation Sunshine State Standards and include a Curriculum Guide with vocabulary, additional activities, and recommended resources.

The 2012/2013 Science Series will feature intensive hands-on programs with enhanced materials and curriculum to engage your homeschool student!
