NOTES

“Selling Price” is the total amount of consideration, including cash, credit, property and services, for which the motor vehicle is sold, leased or rented whether received in money or otherwise. “Selling Price” includes the base selling price of the motor vehicle, all accessories, installation charges, repair charges, any transportation/destination/delivery costs, vehicle preparation fees, VIN Etching, undercoating protection, administrative and/or handling fees, all charges for the federal gas guzzlers tax, and effective July 1, 2007, all warranties, maintenance or service agreements.

The effect of including warranties, maintenance or service agreements in the selling price is that the sale of warranties to nonresidents of the state of Kansas, who will not register the motor vehicle in Kansas and who will remove the motor vehicle from the state of Kansas within 10 days of the date of purchase, is that the warranty, maintenance or service agreement, similar to the motor vehicle itself, is not subject to Kansas retailers’ sales tax. Additionally, trade-in allowances will be allowed against the value of existing warranties when trading motor vehicles.

The following are not to be included in the “Selling Price”: interest, financing or carrying charges, GAP – Guaranteed Auto Protection Insurance, registration fees including title fees, federal excise tax on trucks and trailers, mobility enhancing equipment, and Kansas Tire Excise tax when these are separately stated on the invoice. Commencing on July 1, 2006 and ending on June 30, 2009 “Selling Price” does not include cash rebates granted by a manufacturer to a purchaser or lessee of a NEW motor vehicle when paid directly to the dealer as a result of the original sale.
