Customer Signup

Dear Customer,

Thank you for your interest in our exciting new services, allowing you to freely stay in touch with family and friends in your homeland.

Your friends, family and business associates, can now reach you by dialing a local number in their country. After the call is answered by our system, the caller should dial your extension number (a unique number assigned by us) he would then be transferred to your cell phone, or landline (according to your selection here). It's that easy, Amazing!

If you order a private line, your callers will not need to dial any extension number. They will be redirected to your phone immediately.

In order for us to provide you with your desired service, please take a few moments to fill up all required fields below. Once completed, please use the submit button to send this form via email to: sales@family-phone.com. Alternately you can print the form and fax it to us. You will get a return email message advising you the details of your account. Your credit card account will be charged monthly, according to the service you selected. Accounts with a monthly charge of less than \$10, will be charged every 3 months. All accounts will receive back the prorated amounts of their unused service, in case of cancellation Taxes may also be charged where applicable by law.

Thank you for your business from your FAMILY PHONE.
