

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE	PAGE OF PAGES 1 / 1
2. AMENDMENT/MODIFICATION NO. 1	3. EFFECTIVE DATE See 16 C	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO. (If applicable)		
6. ISSUED BY IDAWY Acquisition Service Center 1405 Hollipark Drive Idaho Falls, Idaho 83401		7. ADMINISTERED BY (If other than Item 6)		CODE	
8. NAME AND ADDRESS OF CONTRACTOR (No., street, county, State, and ZIP Code) Prospective Quoters				<input checked="" type="checkbox"/>	9A. AMENDMENT OF SOLICITATION NO. AG-02NV-S-15-0043
				<input checked="" type="checkbox"/>	9B. DATED (SEE ITEM 11) 05/01/2015
				<input type="checkbox"/>	10A. MODIFICATION OF CONTRACT/ORDER NO.
				<input type="checkbox"/>	10B. DATED (SEE ITEM 13)
CODE		FACILITY CODE			

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in item 14. The hour and date specified for receipt of Offers is extended, is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted;

or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

<input checked="" type="checkbox"/>	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
<input type="checkbox"/>	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
<input type="checkbox"/>	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
<input type="checkbox"/>	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor is not, is required to sign this document and return _____ copies to the issuing

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.

The purpose of this amendment is to add two exhibits to the solicitation, in which these two exhibits will be part of any resulting contract.

The following two exhibits are part of this solicitation and any resulting contract: Exhibit 1 – Operational Spill Incidents Exhibit 2 – Application Record.

All questions shall be submitted in writing to the Contracting Officer no later than Monday, May 19th at 3p.m. MST to avelasco@fs.fed.us. No questions have been asked as of today,

Inquiries and all correspondence concerning this solicitation should be submitted in writing to the Contracting Officer. Quoters should contact only the Contracting Officer issuing the solicitation about any aspect of this requirement prior to contract award.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) AMELIA RIOS VELASCO	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
(Signature of person authorized to sign)		(Signature of Contracting Officer)

Operational Spill Incidents

ADAPTED FROM
FSH 2109.14 - PESTICIDE-USE MANAGEMENT
AND COORDINATION HANDBOOK
WO AMENDMENT 2109.14-94-1
EFFECTIVE 12/06/94

CHAPTER 60 - SPILLS, INCIDENTS, AND ACCIDENTS

61 - SPILLS. Pesticide spills, including adjuvants and fuels, can occur during mixing, loading, transporting, use, or storage. In all cases, deal with pesticide spills immediately and in accordance with established policy and procedure.

61.1 - General Considerations. Spill prevention is the first line of defense in avoiding unacceptable environmental contamination and possible adverse effects to people and the environment. The likelihood of spills is minimized by good pesticide storage, transportation, and handling practices and frequent inspections of storage facilities, pesticide containers, and mixing and loading sites.

61.22 - Spill Kit Setup. Make a spill kit (see below), with directions for use, to aid in the proper handling of a pesticide spill. Label the kit and designate it for use in handling pesticide spills only. Place the kit where spills are most likely to occur. On the label list the contents, and wire seal the kit to inhibit pilferage. Spill kits shall be on-site at storage facilities and loading and mixing sites and on vehicles used to transport pesticides.

PESTICIDE SPILL KIT CONTENTS

2 pairs neoprene gloves

1 pair unvented goggles

1 respirator and cartridges approved for pesticides

1 pair rubber/neoprene boots or overshoes

1 pair of coveralls or rainsuit

1 roll of flagging or engineer's tape

1 repair/patch kit (duct tape, putty)

- 1 dust pan
- 1 shop brush
- 6 polyethylene bags w/ties
- 1 pint liquid detergent
- 1 polyethylene/plastic tarp
- 100 feet of rope
- 10 blank labels
- 1 ABC-type fire extinguisher
- 10-30 lbs. absorbent material or equivalent
- 1 portable eyewash
- 3 gallons of household bleach
- 1 square point "D" handled shovel

61.33 - Spill Containment. Contain spilled pesticides as much as possible on the site where the spill occurs. The spilled pesticide must be kept from entering storm drains, wells, ditches, or water systems by following these procedures:

1. Wear appropriate protective clothing from a spill kit. This includes goggles, respirator (when needed), rubber or neoprene gloves, chemical resistant coveralls or rain suit, and rubber boots or overshoes.
2. Prevent further leakage by repositioning the pesticide container or by applying a seal to the leak with duct tape, putty or other materials from the repair/patch kit.
3. Separate leaking container(s) from other containers.
4. Rope off the area and post "WARNING" signs to keep unprotected personnel from entering.
5. Confine the spill to prevent it from spreading. Encircle the spill area with a dike of sand or absorbent material. As a last resort, use soil or rags. If necessary, dig a ditch to redirect the spill flow.
6. If the spill involves a small water course, a dam of activated charcoal can be used to filter the water. For larger waterways, a log boom or baled straw may be

used to contain the spill. Dam or divert the flow of clean water around the spill if possible.

7. Cover the spill with an absorbent material if the spill is liquid; if the spill is dry chemical, cover it with a polyethylene plastic tarpaulin and secure.

8. Prevent ignition of flammable materials by removing the material and eliminating sources of ignition; for example, exhausts, electric motors, gasoline engines, and cigarettes.

9. Do not flush the spill into a ditch, sewer, drain, or off the road, since this serves to further spread the chemical.

61.34 - Notification. Notify appropriate individuals or agencies on the notification list when a spill occurs. Remember, if additional emergency information is needed, the Chemical Transportation Emergency Center (CHEMTREC: 1-800-424-9300) can provide help. They will contact the manufacturer or the Pesticide Safety Team Network (PSTN) of the National Agricultural Chemicals Association (NACA) for large spills of pesticides. Do not contract CHEMTREC except under actual emergency situations.

61.35 - Site Cleanup. Never work alone, and always maintain eye contact with a work partner. Follow these guidelines for liquid and dry spills.

1. Liquid Spills. Pump as much of the spilled liquid into recovery containers as possible; then:
 - a. Use absorbent materials, such as commercially bagged clay, kitty litter, or sawdust, to soak up the spill. Use only enough material to absorb the spill.
 - b. Spread the absorbent material around the perimeter of the spill and sweep toward the center.
 - c. Shovel the absorbent and pesticide into leak-proof container(s) for subsequent disposal. In some cases absorbent containing pesticides such as herbicides can be applied to the ground as though it were a granular formulation. Contact your Regional Pesticide Coordinator for further information.
 - d. Label all containers properly and legibly.
2. Dry Spills.
 - a. Immediately cover powders or dusts with polyethylene plastic or a tarpaulin to prevent pesticidal materials from becoming airborne. Spreading can also be minimized by dampening the dust with a fine mist of water.

- b. Clean up by rolling the tarp back little by little while sweeping. Ensure that dust remains dampened.
- c. Shovel the material into a plastic bag or recovery container.
- d. Seal the bags or recovery containers and identify the waste pesticide. Label all bags and containers properly and legibly.
- e. Set the bags or drums aside for subsequent disposal or relabeling if the pesticide can still be used.
