

Name: _____ Date: _____

Boardwalk Games

Sammy played games at the boardwalk. He won 4 tickets at the first game. Sammy won 7 tickets at the second game. He won 10 tickets at the third game.

- Fill in the table to show how many tickets Sammy won at the first, second, and third games.

Game	1st	2nd	3rd	4th	5th	6th
Number of Tickets						

- Look for a pattern. Write a rule for this table.

Rule

- If the pattern continues, how many tickets will Sammy win at the 6th game?
 - Use your rule to fill in the table for the 4th, 5th, and 6th games.
 - Explain how you know your answer is correct.
