

# Cardiac Physiologist

## Invercargill, New Zealand

Diagnostic Testing is a small but dedicated Department based at Southland Hospital. We provide a full range of diagnostic procedures for sleep, respiratory and cardiac medicine.

You'll be responsible for providing accurate cardiac investigations, including analysis and comprehensive reports, using standard measurement tools and equipment in the department. We support professional development within the department and look for people willing to educate colleagues and junior staff in the cardiac service.

To be considered for this position you'll need to be a qualified Cardiac Physiologist who is registered, or meets registration guidelines with the CPRB (<http://www.cprb.org.nz/>). You'll also need to hold an annual practising certificate,

or be eligible for one. We're looking for someone who is methodical, a good communicator and able to work both autonomously and as part of a team. If you have echocardiography experience this would be an added advantage.

We can offer you relocation assistance to help you with your move to Southland.

Please apply online or for further details contact Zoë O'Donnell - Recruitment Advisor at [zoe.odonnell@southerndhb.govt.nz](mailto:zoe.odonnell@southerndhb.govt.nz) or phone +64 3 214 5749.

Closing date: Friday 23 December 2011.
