 - I. That this Council notes -
 - (a) that the South Australian Non-Government Organisation Community Sector relies heavily on State Government funding for delivery of services and payments of wages to workers in the industry and that this emotionally taxing labour which is most often performed by women workers is critical to the fabric of our community and to a broader goal of women's pay equity in Australia;
 - (b) that the significant value of this labour is not always reflected in the pay those in the community sector receive and that consequently community sector workers' unions lodged an equal remuneration order with the regulator in March this year and that Fair Work Australia will hold hearings into that pay claim later this year;
 - (c) that a similar pay equity case conducted in Queensland in 2008 resulted in pay increases of up to 37% for workers in this same sector; and
 - (d) that as of 18 June 2010 the Victorian Government has agreed to back higher rates of pay for community sector workers in a deal where that Government would underwrite salary parity for the community sector.
 - II. That this Council calls on the Treasurer and the Minister for Families and Communities to fund the community services sector sufficiently to address this pay inequity still endured by South Australian community sector employees regardless of the outcome of the Fair Work Australia case so that South Australia can join Queensland and Victoria in fully recognising the valuable work of the Non-Government Organisation community sector - (June 23) - (The Hon.  - iii. interstate Independent Medical Examiners engaging in unorthodox practices designed to intimidate injured workers;
 - (b) The allegation that Employers Mutual Limited case managers are intentionally deterring South Australian medical practitioners from working as Independent Medical Examiners by, amongst other things, paying them less than that paid to interstate Independent Medical Examiners and by delaying payment for work completed;
 - (c) The allegations that Employers Mutual Limited and other claims managers are "doctor shopping" by engaging multiple Independent Medical Examiners until a report considered favourable is received;
 - (d) The number of independent medical examinations conducted by interstate Independent Medical Examiners each year over the last four years; and
