

Dear parents,

As a further step towards health and well-being, we would like your feedback for the following change. We would like to offer unhomogenised certified organic milk as opposed to conventional milk. The supply of milk in mind is from Barambah organics. An insight into Barambah's superb quality and authentic work ethic can be located at <http://www.barambahorganics.com.au>. Watching the video via there website is highly recommended.

The change will by no means alter the budget for milk and will not influence the cost of care.

We value your feedback in the aim for the provision of best quality care. Please return this form by the 28/02/2013.

To you and yours,

Emmanuel A-Karim.

Would you like to see a change from generic to Australian Certified Organic milk at GNOSHC? Yes  No

Please share your thoughts with us:
