

**CLINICAL EXPERIENCE VERIFICATION FORM**  
**Physical Therapist Assistant Program**  
**Florida Gateway College**

Students are in the second semester of the Florida Gateway College PTA program. They have taken an Introduction to Basic Patient Care and Therapeutic Techniques. These classes have provided them with the delineated treatment skills: Surface anatomy with palpation, vital sign collection, ergonomics, bed mobility, transfers, ambulation aids and wheelchair training, modalities and massage training.

The information listed below will have been presented to the student throughout the current semester. With each clinical observation, the student will progress in amount of clinical experience and knowledge learned in the classroom. Exposure to orthopedic skills before each clinical observation is listed below:

**C.E. 1:** Tissue Healing

**C.E. 2:** Shoulder/Elbow/Wrist Orthopedic Rehabilitation and Therapeutic Exercise Progression

**C.E. 3:** Hip/Knee Orthopedic Rehabilitation and Therapeutic Exercise Progression

**C.E. 4:** Ankle/Back Orthopedic Rehabilitation and Therapeutic Exercise Progression

Students are encouraged to gain experience at different settings (Acute, outpatient, inpatient, skilled nursing facility). Use a NEW FORM for each.
