In 2014, the exposition area has once again been arranged to enhance interaction between exhibitors and attendees, while still retaining many of the features that exhibitors preferred. The poster area has been moved to the center of the floor to encourage greater contact between the exhibitors and those visiting and participating in the poster sessions. The complimentary light lunch each day will be served from several locations in the poster area, and tables and chairs and benches are provided to encourage attendees and exhibitors to linger and discuss business informally, or just relax in comfort. The Employment Bureau, which assists attendees in networking and provides valuable career assistance, will remain in the expo area at the end of 600 aisle. Lunch breaks for the oral technical sessions in the DoubleTree have been increased to encourage all meeting attendees to visit the expo area and interface with our exhibitors, enhancing the value of the meeting as a source of practical information to solve analytical problems. EAS remains committed to analytical chemists and those in the allied sciences in the Northeastern United States. We provide an audience for vendors to display the latest in analytical instrumentation, supplies, and services to an audience of scientific innovators and problem solvers.

Your 10' by 10' booth includes four exhibitor registrations for your booth personnel, invited customer vouchers to allow your customers to attend the exposition for free or at a reduced cost, and free access to the pre-registrants' list and attendees' list.
