# Portable Appliance Testing Training Course

173

## City & Guilds Certified P.A.T. Testing 2377

FOR ALL YOUR TRAINING NEEDS....

(Portable Appliance Testing)

These courses qualify you to manage and undertake PAT testing. Every item of electrical equipment in a commercial environment is required to be PAT tested, that is it has been tested as being safe to use and has been marked safe, whether it be a kettle, toaster or computer.

These practical workshops cover everything necessary to successfully achieve the City & Guilds certification. The course covers both a theory and practical element.

Regulations and Responsibilities  
Insulation and Earthing  
Essential Tests  
Labeling Tests  
Practical Assessments  
Documentation  
Law and Legislation  
Reporting and Recording Results

Optional Tests  
Inspection and Test Precautions  
Testing of Electrical Equipment  
Appropriate Test Instruments and how they are used  
Health & Safety  
Frequency and Practicalities of PAT Testing  
Implementing a test programme  
Inspection
