The Society of American Military Engineers (SAME) 2009 College Scholarship Program

The Sacramento Post of the Society of American Military Engineers (SAME) awards scholarships annually to high school and college students who are studying engineering, science, or related technical disciplines. SAME is a non-profit association linking military and civilian engineers, architects, and engineering related professionals. The Society's membership totals more than 22,000 civilians, 6,000 members of the armed forces, and over 1,000 engineering students.

Awards

At least three scholarships will be available in 2009 for each school category as listed below:

- \$4,000, \$3,000, and \$2,000 to college students pursuing an engineering, math, or science degree;
- \$2,500, \$2,000, and \$1,500 to junior college students, including those working toward an AA degree; and
- \$2,000, \$1,500, and \$1,000 to high school seniors interested in pursuing a degree in engineering or a related field.

The SAME Sacramento Post Board of Directors also retains the option to select additional scholarship awards for each category based on the number and quality of applications received.

In 2008, we awarded 21 scholarships totaling \$28,500.

Eligibility

To be eligible for an award, the scholarship applicant must be:

- A U.S. citizen;
- A full-time undergraduate student at an accredited university or community college, or a graduating high school senior, and;

Application Process

Scholarship applicants must: 1) complete the SAME College Scholarship Application Form, 2) complete the Extracurricular Activity and Community Service Log Form, 3) prepare a Narrative (see content guidance below), and 4) submit the SAME Student Membership Application Form. The narrative may include photographs, graphics, or other artwork; but it should be no more than four (4) pages in length.

Be sure to include two (2) Letters of Reference from sources who can attest to your character, work ethic, academic accomplishments, outside activity achievements, or anything else to support your application.
