

Georgia State Defense Force SARSPEC II / GSDF Packing List

Revision 1, Replaces SARSPEC II Excel Form

**GSDF TC
350-1PL**

Regulation Number:	GSDF Training Circular 350-1 PL
Title:	SARSPEC II / GSDF Packing List
Effective Date:	10 MAY 2010
New / Revised:	Revision-1, 10 MAY 2010 – Completely re-written and formatted.
Applicability:	This regulation applies to all GSDF personnel who perform field operations.
Supplementation:	Local supplementation is authorized for additions only, the minimum standards may not be relaxed. Comments and suggested changes may be submitted in writing to the G3.
Proponent:	ACoS, G3
Appendices:	A. Single Page form for individual use,
References:	National Assoc of Search and Rescue Introduction, Fundamentals, and Advanced Search and Rescue, TC 21-24 Rappelling, FM 3-97.61(TC 90-6-1) Military Mountaineering. Appendix A & B this TC.

This training circular provides the minimum required equipment necessary to complete the SARSPEC II Training and meets the minimum requirements for NASAR for course credit. This provides only minimal acceptable standards. SAR training and SAR Operations are inherently dangerous; so commanders at all levels must analyze the mission and training at hand and add the necessary equipment for safe mission accomplishment. After determining the risks, risk reduction options or controls should be integrated into the training activity. These options or controls may range from safety briefings—to providing additional safety resources—to selecting other means of accomplishing the mission.

The proponent for this publication is the GSDF ACoS G3. The preparing agency is the GSDF Training and Operations Branch. You may send comments and recommendations by any means, U.S. mail, e-mail. Recommended Changes to Publications and Blank Forms. Point of contact: E-mail: majrgr@yahoo.com

This regulation applies to all units and personnel the Georgia State Defense Force (GSDF) who will operate in the field.

A standardized training regimen, certification procedure, and operational competence in Search and Rescue is the fundamental base of operations and knowledge for a member of the Georgia State Defense Force and the GSDF METL.

Introduction: GSDF will follow the guidelines found in this publication, unless amended by the command, and those found in the National Assoc of Search and Rescue Introduction, Fundamentals, and Advanced Search and Rescue, program, the Army's TC 21-24, Rappelling, dated January 2008 and Field Manual 3-97.61, Military Mountaineering. The commander's intent is to standardize a minimum packing list across the force. This will allow the GSDF to measure our operational and tactical ability in SAR operations.

All personal equipment should be packed in a waterproofed military manner. You should not pack anything you cannot carry 1-2 miles. LBE / 24hr Pack will be worn during all courses.

All trash will be packed out. All food should be consumable without cooking unless done on an individual self-contained stove.

Your LBE should be matching within itself, ie all ACU, all OD, all Woodland etc. Your pack does NOT have to match your LBE unless it is attached to the LBE.

SARSPECII Individual Must Have Equipment, (SOME MAY BE GSDF REQ. ALSO)

Contents of Required Personal First aid Kit

GSDF REQUIRED EQUIPMENT

**** Optional Equipment**

CARRIED ON YOUR PERSONAL LBE

CARRIED IN YOUR PACK
