He will also talk about why contractors should take advantage of the opportunity to become COR certified. Mike will be followed by special guest Jeff Lyth, BCCSA Regional Safety Coordinator, who will give a presentation on:

Leadership in Safety!

Jeff will discuss the importance of a safety management system but also discuss what lies beyond COR, and how leadership is the key to continual improvements and more successful production and safety outcomes. Jeff has been a safety professional for over 20 years. In addition to his work with BCCSA, Lyth is a safety consultant for the ITC Construction Group. He has also given workshops and presentations on safety in locations as far away as China.

Don't miss this informative session, which will include a **FULL BREAKFAST**. Seating is limited so don't delay!
