

Scottish Regional Group 2013 Session: CPD Stirling Seminar

Timber Connections to EC5

Tuesday 5th March 2013

Stirling Management Centre, University of Stirling

2.55pm to 7.00pm

Registration, tea and coffee from 2.15pm

If you design in timber and would like to further your experience in the use of Eurocode 5 then this seminar is not to be missed. Presented by **Keerthi Ranasinghe of TRADA**, this seminar will focus on the intricacies of designing timber connections to EC5 as well as focusing on the materials, properties and the European Regulations and CE marking. Worked examples will also be provided and attendees will be able to obtain a copy of the lecture notes and examples in pdf format.

Recommended for 4hrs CPD

Registration Fee	Contact for Further Information
£60.00 IStructE (Graduates)	Liz Balfour ; mob: 07769 947897
£70.00 IStructE (all other Grades)	20 Craigholme, Houston PA6 7DB
£80.00 Non members	e-mail : Liz@balfourengineering.co.uk

Scottish Regional Group 2013 Session: CPD Stirling Seminar

Timber Connections to EC5

Tuesday 5th March 2013

Speaker

Dr. Keerthi Ranasinghe, BSc (Eng. Hons.) PhD

Keerthi is the Principal Structural Engineer & the Eurocodes Consultant for Timber Research And Development Association, TRADA. He manages TRADA's strategy for transition to Eurocodes, writing design guidance and software tools for structural engineers and timber practitioners.

One of Keerthi's most recent accomplishments saw him successfully helping British Waterways, the largest single end user for solid timbers in the UK, to migrate to Eurocode 5.

He is a CPD lecturer for Eurocode 5 at the Institution of Structural Engineers, UK, as well as being a visiting lecturer for Surrey University on Timber Engineering.

He is the author of the Eurocode 5 version of the popular TRADA publication, Span Tables and is also the brain behind TRADA Eurocode 5 online software suite.

Before joining TRADA, Keerthi worked in London as a structural engineer following ten years experience as a university academic.

Keerthi also sits on the British Standards Institution BSI committee B/525/5 on timber engineering and is the current commentator for Eurocode 5 on the BSI Eurocodes Online website.

Outline Programme:

2.15pm	Registration and tea/coffee
2.55pm	Introduction by Chairman Iain Balfour
3.00pm	A brief outline on the design of connections to Eurocode 5 including worked examples
5.00pm	Tea break with buffet
5.30pm	Discussion about materials, properties and ways of obtaining these.
6.50pm	Questions and discussion
7.00pm	Close
