Ohio ECC Overview

Ohio | Department of Job and Family Services

What is Ohio ECC?

- Ohio Electronic Child Care

- Ohio ECC is an automated time and attendance tracking system

- Ohio ECC is managed using a POS (Point of Service) device and a magnetic stripe card

- Caretakers use a swipe card to report attendance each day

- The data collected by the POS device is transmitted to the Ohio ECC system for verification of benefits and calculation of payments to the provider

Ohio | Department of Job and Family Services

Affiliated Computer Services- ACS

- Vendor selected by ODJFS through competitive bid process

- ACS provides proven training experience in several state ECC projects

- Currently have 5 other states live and in production using the ECC system

  - Oklahoma, Texas, Louisiana, Indiana, Colorado

- Currently have 4 other states scheduled to go live by end of 2011

  - Alabama, New Jersey, Virginia, North Carolina

Ohio | Department of Job and Family Services

What are the benefits for the provider?

- Automates the collection of attendance data

- Real-time transaction information available to providers

- Access to attendance records and reports through the point of service (POS) device and the Provider Website (PWeb)

- Providers receive weekly payments

- Reduction in errors and improper payments

- Reduction of manual invoice processing

Ohio | Department of Job and Family Services

What changes?

- Gives caretakers (parents) the responsibility for reporting child care attendance using their swipe card with the provider's POS device

- Automates payment calculation

- Reduces paper invoicing

- Providers are paid weekly

- New authorization, attendance and payment reports

- Real time transaction information available to providers

- Weekly co-payments are assigned to caretakers

- Manual claim process for services outside back swipe period

Ohio | Department of Job and Family Services

What stays the same?

- ODJFS continues to license providers

- CDJFS continues to certify Type B providers/in home aides

- CDJFS manages overpayments and underpayments

- Caretakers contact the county for eligibility assistance

- Caretakers and providers will still receive notices

- Provider completes Provider Agreement via CCIDS Portal

- Providers continue to report absences

Ohio | Department of Job and Family Services

Who uses Ohio ECC?

- Caretakers
  - To report their child's attendance

- Providers
  - To collect attendance data
  - To record absences
  - To view and download reports

- State & County Workers
  - To manage caretaker participation in the program
  - To assist caretakers & providers with information
  - To process manual claims and authorization level adjustments
  - To communicate with providers using broadcast messages

How Ohio ECC Works

Equipment required

Ohio ECC Swipe Card

Point of Service Device

Ohio | Department of Job and Family Services

Point of Service Device - POS

- Providers with active authorizations for children receive a POS device

- Caretakers (parents) receive swipe cards

- POS device is located with child care provider

- Providers cannot swipe or back swipe for caretakers

Ohio | Department of Job and Family Services

POS

- ## One POS for every 50 authorized children
  - Providers can request additional devices at their expense

- ## Provider Equipment agreement between ACS/provider on care of POS

- ## Normal wear/tear or defects

  - Provider calls Ohio ECC Provider Helpline and new device sent with postage paid packaging to return defective POS

- ## Will be mailed within 48 hours

- ## Provider can keep same POS if they relocate

Ohio | Department of Job and Family Services

CARETAKERS

Ohio | **Department of Job and Family Services**

How Caretakers (Parents) Report Attendance

- Cardholder will swipe the card through the POS device

- Cardholder will enter their secure 4-digit Personal Identification Number (PIN)

- Cardholder will select one of the options shown on the POS device:

  - Check In/Out, Previous Check In/Out

- Cardholder will enter their child's 2-digit number (01, 02, 03, etc.)

- Cardholder will press Enter key again to complete transaction

Ohio | **Department of Job and Family Services**

What have caretakers been told?

- The primary caretaker is issued two cards
- All other caretakers on the case are issued one card
- Caretakers can choose someone as a designee to use their card
  - The designee cannot be the provider or anyone acting on the provider's behalf
- After getting the card, the caretaker must activate card and select their 4-digit PIN by calling a toll-free number
- If lost, stolen or damaged ACS replaces the card
- Penalties to providers for possession or use of card
- Penalties to families for leaving card with provider

Ohio | Department of Job and Family Services

Verification Process

- The POS transaction is sent to Ohio ECC for verification:
    - ✓ Case Eligibility
    - ✓ Child Authorization
    - ✓ Authorized Provider
    - ✓ Category of Authorization (Hours remaining)

- If all the checks are confirmed, the transaction is approved

- If any check fails, the transaction is denied

Ohio ECC Caretaker FAQs

What is Ohio's Electronic Child Care (Ohio ECC) system?

Ohio's Electronic Child Care system, or Ohio ECC, is a method of reporting your child's attendance. You are in charge of recording your child's attendance by using a swipe card and your child care provider's card reading machine, called a point of service (POS) device.

Who is the caretaker?

The caretaker is the parent, any other adult or minor parent in the home responsible for the care of the child, as identified by your county department of job and family services (CDJFS) at the time eligibility is determined.

Do I have to use the Ohio ECC system?

Yes. The Ohio Department of Job and Family Services (ODJFS) will pay providers only for care that is recorded through the Ohio ECC system.

Can I choose any provider to care for my child?

You can choose any provider who has entered into a provider agreement with ODJFS. If your provider does not have an agreement with ODJFS, you could be responsible for payment of any care provided.

How will my provider know that I am eligible to receive child care?

Prior to starting care, you must tell your child care caseworker you have chosen a child care provider. The provider will receive copies of the approval and change notices, which include the weekly maximum number of hours for each authorization. Your weekly co-payment amount must be paid directly to your provider.

How does my swipe card work?

You record the times your children receive care by using a swipe card and your provider's card reading device. When you swipe your card, the date and time of your child's arrival or departure is recorded.

How do I correct my attendance information?

If attendance is recorded incorrectly, your provider has the ability to make a correction. Please talk directly to your provider about correcting any errors. All corrections must be made during the back swipe period.

How do I activate my swipe card?

Once you receive the card, call the Ohio ECC Caretaker Helpline at 1-888-796-4322 and follow the instructions to choose your 4-digit personal identification number (PIN).

What happens if I am not able to report my child's attendance?

You can catch up on missing days by using the "Previous Check In" and "Previous Check Out" process on the swipe card device.

Can other people drop off or pick up my child?

Yes. All caretakers listed on the case will receive a swipe card. You may also designate someone, other than a child care provider, to use your card to record attendance on your behalf. However, you are responsible for ensuring accurate reporting of your child's attendance.

Can I give my card to my provider to do this reporting for me?

No. The designee may not be a child care provider or anyone acting on the provider's behalf. Giving your card to a child care provider can result in termination of your child care benefits.

If I have children at different providers, do I need more than one card?

No. The card will work at any provider location where your children are authorized to attend.

What if I forget my PIN, lose or damage my card?

To resolve issues with your swipe card or PIN, call the Ohio ECC Caretaker Helpline at 1-888-796-4322. This telephone number is printed on the back of your card.

What if I receive an error message on the card reading device?

If the card reading device shows your child is not eligible, call your child care caseworker at your CDJFS. You may find the telephone number at http://jfs.ohio.gov/county

Where can I get more information?

More information about the swipe card and card reading device is available through an online presentation at http://jfs.ohio.gov/cdc/childcare.stm

PROVIDERS

Process for NEW Providers

- Provider is certified/licensed
- The ODJFS Provider Agreement is submitted using CCIDS Provider Portal
- County authorizes child to provider
  - Triggers: ACS Equipment Agreement to be mailed
  - Triggers: POS installation appointment
  - Triggers: Card mailer to caretaker

- Provider should keep attendance records until POS is installed
- After POS installation, caretaker will back swipe for care received during the back swipe period
- Provider submits manual claim for attendance before the back swipe period

Ohio | Department of Job and Family Services

POS Device Usage

- POS display shows approved/denied

- POS denies transaction if no authorization

  – Contact child care caseworker

  – Providers establish business practices for denied swipes

- Provider uses Point of Service (POS) device to:

  – Print daily transaction receipts

  – Void transactions

  – View broadcast messages on receipts
    - Sample message: Caretaker must contact child care caseworker for new authorization by 12/30/2011

  – View and print POS reports

  – Ensure that Store and Forward (SAF) transactions are sent

Ohio | Department of Job and Family Services

POS Device Reports

- ## The POS can print two daily reports

  - ### Daily Attendance Report

    – Shows all attendance transactions received for a specified date

  - ### Exception Report

    – Shows unmatched check ins for a specified date; Check in transactions for which there is not a corresponding check out transaction

- ## Reports are available on the POS for the previous 20 days

Ohio | Department of Job and Family Services

Store and Forward (SAF)

- If the communication connection is interrupted, phone line is down or no internet connection, the POS automatically enters a "Store and Forward" (SAF) mode

- As long as the POS device has power, transactions are still accepted and stored

- The POS device automatically transmits stored transactions when the phone line or internet connection is restored

- In SAF mode, providers will not receive an approved or denied message when the card is swiped

- After all transactions have been sent, a report prints showing approved/denied swipes

- The SAF period is the current day plus the previous 5 calendar days

Ohio | Department of Job and Family Services

POS Device Supplies

- Initial supply of paper is provided
  - Type A: 9 rolls
  - Center: 18 rolls
  - All others: 3 rolls
- Thermal paper, no ink is used
- Paper can be purchased at most office supply stores
- POS device must have paper in the tray to work, even if printing turned off

Ohio ECC Provider FAQs

What is Ohio's Electronic Child Care System (Ohio ECC)?

Ohio ECC is an automated way to report child care attendance that will reduce paperwork and improve accuracy for providers. Caretakers (parents) must report their child's attendance by using a swipe card with the provider's card reading machine, called a point of service (POS) device.

Who is the Caretaker?

The caretaker is the parent, any other adult or minor parent in the home responsible for the care of the child, as identified by your county department of job and family services (CDJFS) at the time eligibility is determined.

POS Device

What is a point of service (POS) device?

A POS device is a card reading machine that looks and works like a credit or debit card machine you see in stores. The difference is, instead of recording financial transactions, your provider POS device will record attendance transactions.

Do I have to use a POS device?

Yes. The POS device must be used to collect attendance information in order to calculate your payment. The Ohio Department of Job and Family Services (ODJFS) will only pay for care recorded through the Ohio ECC system.

Who receives a POS device?

Providers who have completed a provider agreement with ODJFS and are caring for at least one child receiving publicly funded child care will receive a POS device.

How do I get a POS device?

You will receive a mailing from Affiliated Computer Services (ACS). It will include an Ohio ECC Provider Equipment Agreement that must be signed and returned to ACS. You will be contacted to schedule an on-site

visit so the POS device can be installed. You will receive training at this time.

How many POS devices will I receive?

You will receive one (1) POS device for every 50 children who are authorized to receive publicly funded child care.

Do I have to pay for the POS device?

No. There is no cost for standard installation and normal wear and tear. Providers have the option of leasing additional POS devices.

What type of phone line do I need?

You must use a landline phone or a broadband Internet service. Other phone systems - such as cable phones, DSL connections, or VOIP phones - must be tested on a case-by-case basis.

The following types of phone lines do not work: 1) true digital phone systems in which an electronic box routes calls through extensions; 2) multi-line analog phones that require you to press a line button to dial out; 3) any type of wireless connection.

Who is responsible for maintenance and replacement costs for the POS device?

ACS repairs or replaces malfunctioning equipment free of charge. In the case of replacement, the old device must be returned to ACS using a pre-paid shipping label provided by ACS. See the Ohio ECC Provider Equipment Agreement for more details.

Swipe Cards

What is an Ohio ECC swipe card?

It is a card with a magnetic strip that is swiped through the POS device to record children's attendance. The card is issued to a caretaker and can only be used at an authorized child care provider.

How does the swipe card work?

The caretaker, or caretaker's designee, swipes the card through the POS device to record attendance information for the child. These swipes are often called "transactions."

Can I record attendance on the caretaker's behalf?

No. The caretaker's designee may not be a child care provider or anyone acting on the provider's behalf. This is considered a misuse of the card and may result in the termination of the caretaker's benefits and penalties and sanctions against you.

What if the caretaker is not available to record attendance because I transport the child?

The caretaker will have to come to the place of business during the back swipe period and record the child's attendance. Providers are encouraged to establish good swipe card business practices.

Will the POS device indicate if the child is authorized?

Yes. Once the caretaker swipes the card, the POS device will display whether the child is approved or denied. This information is printed on the receipt and displayed on the Ohio ECC Provider Website (PWeb).

What if there is more than one child in the family?

Each child is assigned a unique two-digit number (ex. 01) which is listed on the card carrier the caretaker receives with the card. The child number is also on all regular notices sent by the county agency.

INSTALLATION

Ohio | Department of Job and Family Services

Getting Equipment

- Media Riders, Inc. (MRi) is an ACS subcontractor in charge of all equipment installations

- There is no cost to the provider for the POS device, initial paper supply, training or resource materials

- The provider is responsible for providing a communication connection; either an analog phone line or broadband internet connection for the POS device

  - Refer to Installation Guidelines and POS "What Do I Need to Know?" documents for additional information

- Providers are responsible for the cost of additional cabling or cords for installation

Ohio | Department of Job and Family Services

Equipment Installation

- An installation technician from Media Riders, Inc. (MRi), will contact the provider to set up a date & time for the installation

  – MRi is scheduled to do installations in specific areas of the state on specific dates

  – Provider is responsible for accommodating any language or special needs

- A typical onsite visit can last up to 1 hour

- Providers may have others on their staff present for the training

- Installer can only train on the POS device and cannot answer policy or program related questions

- The technician and provider sign a checklist confirming equipment installation and training completion

Ohio | Department of Job and Family Services

What to consider

- ## Method of communication
  - Dial up using a telephone line (analog) for access, or
  - Broadband or DSL for access to the internet

- ## Placement of POS
  - Place where children are dropped off or where the highest foot traffic occurs
  - 8 foot – 3 prong power cord, 6 foot telephone or Ethernet cable is provided
  - Any additional customization, including longer telephone or ethernet cables, must be completed by the provider prior to the installation appointment

Ohio | Department of Job and Family Services

Dial Up Option

- The dial up option is used when a simple analog phone connection can be made

- This connection can either be made at a wall jack or run through the back of a fax machine

- Installers can provide splitters for single open jack

Dial Up Option - Continued

- ## Things to consider

    - Multi-line phones that require user to press a line button to access an open line cannot be used

    - Dial Out Prefixes, must be made known to the MRi installer prior to installation

- ## Connection speed is relatively quick, takes about 20 seconds per transaction

Ohio | **Department of Job and Family Services**

Internet Options

- The internet option is used when a high speed broadband connection is available

- Typically connections can be found either on the wall data port or an open port on a hub or router

Internet Options – Continued

- Things to consider
  - Firewalls
  - Available ports or jacks
  - Number of POS devices to be installed

- Connection speed is very fast, just a matter of seconds

Ohio | Department of Job and Family Services

Internet Requirements

- If your network has firewalls or security in place, there are a few requirements that must be completed prior to installation to allow for a successful installation

  – The following ports will need to be opened

    Host Port   # 61112

    Download Port # 8013

  – The device needs to connect to the host address at

    pos.acs-inc.com

- For providers with a technology staff person refer this information to them; otherwise providers should contact their internet service provider
