

UNLEASHING CREATIVE GENIUS... ONE CHILD AT A TIME

This summer, invest in the skills that will help children achieve their full potential throughout the school year. Nonprofit Invent Now's premier program, Camp Invention, is a weeklong adventure in creativity. Your children will experience inquiry-based learning through FUN activities that will help them **unleash their creative genius**.

The Camp Invention program consists of **five exciting modules** that are designed to provide a unique opportunity to explore the unknown, tinker with ideas, and satisfy an innate sense of curiosity. Children must tap into their creativity to solve real-world challenges and work as a team, using problem solving as a portal to discovery.

Renowned for the difference it's making nationwide, this STEM enrichment program provides a safe, creative outlet for children to extend school year learning through FUN, hands-on activities that develop **important life skills that prepare them for the 21st century**.

"The other day, I heard my son say to his sister, 'There's no such thing as failure, and there's more than one way to solve a problem.' I nearly fell on the floor. Thank you, Invent Now!"

- Camp Invention Parent

"The student engagement was amazing to see. It was so different than what we observe in many of our classrooms..."

- Camp Invention Participant

"I have never seen him so enthusiastic about anything like this before!"

- Camp Invention Educator

INSPIRE A PASSION FOR LEARNING IN YOUR CHILD!

Each day, children entering grades one through six will participate in these five modules that are led by qualified local educators and full of hands-on activities.

This year's **NEW** SPARK program features:

The Curious Cypher Club™

Stop the mysterious messages being sent to the *Curious Cypher Club*! Build a clubhouse, crack puzzling codes, and discover why these messages are being sent!

Bounce! An Atomic Journey™

Bounce your way through atoms, molecules, mixtures, and compounds to discover the science behind balls, and create your very own bouncy ball to take home!

W!LD: Wondrous Innovations and Living Designs™

How are cuttlefish, beetles, and geckos alike? Join us on a W!LD animal adventure as we investigate the most innovative survival traits on the planet!

Game On: Power Play™

Practice teamwork, coordination, and creative problem-solving skills as we explore new games and add our own twist to create high-energy challenges!

I Can Invent: Edison's Workshop™

Using real tools, take apart a broken appliance and upcycle its gears and gadgets to create ball-rolling and Rube Goldberg-type machines!
