

CPM Scheduling

What is the Critical Path?

How is the Critical Path established?

Why does it matter? – How important is it?

Most projects are driven by the CPM schedule

This all-day workshop equips participants with the knowledge base required to use the CPM schedule as their most valuable management tool

Learn how to:

- Develop the logic for a construction schedule
- Find the critical path
- Evaluate various scheduling strategies
- Take full advantage of "Critical Path Method" techniques
- Create, review and implement a workable CPM schedule
- Know when and how to update your schedule
- Discover the profitable edge that competent scheduling creates
- Work through the scheduling process from A to Z
- Discover the mechanics behind computer generated charts

This session is packed with relevant work session exercises

This IS NOT computer based training - No software is promoted
