

I live in California and I support Assembly Bill 376.

Dear Assemblymembers Fong and Huffman,

Thank you for introducing legislation to protect sharks from the cruel and unsustainable practice of shark finning.

Shark populations worldwide are collapsing and current laws are inadequate to stop the shark fin trade. AB 376 will ensure that California ceases to contribute to the supply and demand for shark fin through a ban on the possession, sale, trade and distribution of shark fins.

As top predators, sharks help maintain the balance of marine life in our oceans. The massive depletion of sharks has adverse effects on ocean ecosystems. AB 376 will give critical protection to sharks and help preserve the world's ocean biodiversity.

Please inform my Assemblymember and Senator of my support for AB 376.
