Title: Terrorism Risk Insurance Program—Recoupment Procedures of the Terrorism Risk Insurance Act.

Abstract: Sections 103(a) and 104 of the Terrorism Risk Insurance Act of 2002 (Pub. L. 107–297) (as extended by the Terrorism Risk Insurance Extension Act of 2005 (Pub. L. 109–144) and the Terrorism Risk Insurance Program Reauthorization Act of 2007 (Pub. L. 110–160) authorize the Department of the Treasury to administer and implement the Terrorism Risk Insurance Program established by the Act. Section 103(e) of the Terrorism Risk Insurance Act of 2002 gives Treasury authority to recoup federal payments made under the Program through policyholder surcharges, up to a maximum annual limit. The Secretary is required to provide for insurers to collect these amounts and remit them to Treasury. In order to determine how and when to initiate the recoupment process Treasury will require information about industry aggregate total insured losses, insurer deductibles and reserves and may need to issue a “data call” to supplement existing industry reporting. If recoupment is initiated, insurers will be required to report and remit the Federal Terrorism Policy Surcharge. Treasury will require access to all books, documents, papers and records of an insurer that are pertinent to the Surcharge for the purpose of investigation, confirmation, audit and examination. The record keeping and reporting requirements will arise only after Treasury has initiated the recoupment process. This clearance action is for the data call, insurer reporting and record keeping requirements set forth in 31 CFR part 50, subpart H (Sec. 50.71 (d)).

Type of Review: Extension of a currently approved data collection.

Affected Public: Business/Financial Institutions.

Estimated Number of Respondents: 24,200.

Estimated Average Time per Respondent: 5 hours.

Estimated Total Annual Burden Hours: 121,000 hours.

Request for Comments: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the

agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collections; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Dated: July 11, 2012.

Jeffrey S. Bragg,

Director, Terrorism Risk Insurance Program.

Title: Terrorism Risk Insurance Program—Program Cap on Annual Liability.

Abstract: Sections 103(a) and 104 of the Terrorism Risk Insurance Act of 2002 (Pub. L. 107–297) (as extended by the Terrorism Risk Insurance Extension Act of 2005 (Pub. L. 109–144) and the Terrorism Risk Insurance Program Reauthorization Act of 2007 (Pub. L. 110–160) authorize the Department of the Treasury to administer and implement the Terrorism Risk Insurance Program established by the Act. Section 103 of the Terrorism Risk Insurance Act of 2002 (the Act), as amended by the Reauthorization Act, sets a limit on the annual liability for insured losses at \$100 billion. This section requires the Secretary of the Treasury to notify Congress not later than 15 days after the date of an act of terrorism as to whether aggregate insured losses are estimated to exceed the cap. The Act, as amended, also requires the Secretary to determine the pro rata share of insured losses under the Program when insured losses exceed the cap, and to issue regulations for carrying this out. In order to meet these requirements, Treasury may need to obtain loss information from involved insurers. This would be accomplished by the issuance of a “data call” to ascertain insurer losses. In the event of the imposition on insurers of a “pro rata loss percentage”, it will be necessary to determine compliance when processing insurer claims for payment of the Federal share of compensation. This would be accomplished by nominal revision to the currently approved Treasury form TRIP 02C, “Bordereau” or “Schedule C”. In 31 CFR part 50, subpart J (sec. 50.94).
