

ATTESTATION FORM AVAILABLE FOR YOUR INCREASE IN MEDICAID PAYMENT

Pursuant to the Affordable Care Act and 42 CFR 447 state Medicaid agencies are required to reimburse for services provided by family practice, general internal medicine, or pediatric medicine primary care physicians at an amount equal to that paid by Medicare Part B for certain procedures considered to be primary care or vaccination administration. In order to qualify for the supplemental amount the physician rendering or supervising the service must personally attest that they specialize in one of certain primary specialties.

The physicians must also attest that 1) they are board certified in that specialty or sub-specialty or that 2) at least 60% of recent claims submitted by or on behalf of the physician to the state Medicaid agency were for these procedures or vaccination administration. Physicians wishing to attest to their eligibility to provide the services for which these supplemental payments are made should provide the information requested below.

The form is online at <https://www.surveymonkey.com/s/CO-DR-Attestation>

Services eligible for the increase are those that begin after 1/1/2013, payments will not start until April.

Questions regarding the rule and the information requested can be sent to:
