Spending Money:

An often asked question is how much spending money do students need. The amount of money needed by each student can really vary. I can only tell you what they need and then each family must decide on a budget that they feel comfortable with. Students will buy only 1 meal. Students are provided 3 meals per day. Drinks in the parks are expensive. Souvenirs are completely optional, and we have seen students spend a little and a lot. Again this is an area where a family budget should be decided. We will advise the students to budget their money wisely for the week, and we will explain to them how to get the most for their meal tickets. Students need to decide how they plan to bring their money with them. They should be careful of large amounts of cash.

Please enclose \$50 as a down payment made payable to BMPA for this spring's BHS Marching Band Florida Tour. This down payment is non-refundable and tells the trip planners to arrange for hotel space and a bus seat for this student. The total per student cost is dependent on the number of students that commit to traveling*. Therefore, the above student's family will be responsible for their share of both the hotel and bus regardless of whether or not the student actually travels.

* While each student will be responsible for paying \$950, the actual trip cost will be more than that. The band fund will pick up the difference between \$950 and the actual cost. The actual cost will be made known as soon as possible if a family would like to pay for their child's entire trip.
