

TWO-TIER & SINGLE-TIER CATERING TABLE SOLUTIONS

SICO CATERING TABLES SET IN THE KITCHEN, ROLL INTO USE, READY TO SERVE.

- **Pre-set in the kitchen.** A SICO Catering Table allows a beautifully presented service to be completely set up in the kitchen, then rolled into use by one person.
- **SICO reduces labor costs** because there is no need to double-handle everything on the service table. Only one person is needed to roll a table into service. A cost-effective way to serve lunch to small groups.
- **Top quality construction** include tops that are MDF construction with SICO Armor-Edge® for easy cleaning.
- **Roll quietly and easily.** SICO Catering Buffet Tables won't disturb meetings. Quiet 5" (12.7cm) SICO casters are oversized so tables roll easily over thresholds, and down carpeted hallways. Roll in a coffee service or lunch without disturbing events. Two casters may be locked when table needs to be stationary.
- **The table opens easily** from the folded position with the SICO air-brake.
- **Two-Tier Jr.** is designed for easy access into confined spaces.

SICO ROOM SERVICE TABLES

SICO ROOM SERVICE TABLES MOVE AS FAST AS YOUR BUSINESS. FROM HOUSEKEEPING TO ENGINEERING, THESE TABLES ARE USED TO DELIVER MORE THAN JUST FOOD.

- SICO Room Service Tables are quiet whether rolling to guest rooms, or returning to the kitchen. Vinyl-coated PVC racks eliminate noisy metal-to-metal contact when transporting any size food warmers, cup racks, etc.
- Easy-care high pressure plastic laminate tops and melamine backer sheets can be cleaned with soap and water or steam cleaned.
- The MDF core outperforms plywood or particle board, is light-weight and resists warping.
- Table top surface is textured to better hold table cloths.

Extra heavy self-cleaning vertical hinges give extra security to whatever gets loaded on your room service tables. Compare — SICO Room Service Tables are built better, to last longer.

Retractable bar locks table wings in place when table is in fully flat position.

Comfortable seating for four with oval shape tables that won't crowd your guest rooms. The oval shape also makes it easier for guests to reach everything on the table. SICO's center leg design gives your guests extra leg room. Racks flip up to allow unobstructed seating.

Superior construction

Aircraft locknuts are used at all pivot points so they stay in place through years of use.

Easily cleaned frames are available in high quality nickel chrome plate or black powdercoat finish so that they remain professional-looking for years.

4" (10cm) gray polyurethane wheel. Zinc plated caster for attractive appearance and corrosion resistance.

Tops fold vertically for storage on Tri-Fold, Bi-Fold, and Uni-Fold tables. Tables can be nested in a minimum of floor space, 6 1/2" (16.5cm) during storage.

Optional:

Table Guide available. Rotates instantly from stored position beneath tables into use.

DURABLE MATERIALS

The SICO Armor-Edge®

is the strongest edge available. It hermetically seals the edge for sanitary purposes, allowing for easy clean-up, including steam cleaning.

Expansion rivets (not screws that can work loose) attach frames to tops for a long life of hard use and abuse.

ROOM SERVICE TABLES

SICO OFFERS YOU MANY CHOICES IN ROOM SERVICE TABLES.
CHOOSE A BASIC MODEL OR CUSTOMIZE ONE TO FIT YOUR NEEDS.

TRI-FOLD

SICO Tri-Fold Room Service Table is an exclusive SICO design. It is the only table available where the leaves are locked in an upright position, greatly reducing spillage and breakage. Leaves may be folded down for transport, folded out for serving, and then locked in the upright position for return to your kitchen. Top easily tilts to a vertical position for storage.
