## Field Office and TSP Certification Plan Review Checklist

## Conservation Activity Plan – Forest Management Plan Practice Activity Code (106)

(Refer to National Bulletin 450-13-3 for a complete listing of CAP Criteria)

<u>Purpose:</u> The purpose of the checklist is to provide guidance for elements that need to be addressed or included in the Conservation Activity Plan (CAP). The checklists are recommended for use by NRCS staff and Technical Service Providers, but are not required. NRCS staff can use the checklist for administrative review of the sample plans submitted as part of the certification process as well as all other plans submitted after a TSP is certified. TSPs can use the checklist for a general guidance of elements to include in the plan, but it is still the TSP's responsibility to follow the CAP Plan Development Criteria for specific elements and the detail of each element to be included.

<u>Instructions:</u> The checklist should be completed and submitted with the sample plan or the hardcopy of the client's plan as described below:

- Prospective TSP's should submit the completed checklist and sample plan by mail or email (complete plans should be sent as a single electronic file for example pdf, word or scanned file) to the appropriate State TSP Coordinator for technical review to become a certified TSP. A list of State TSP Coordinators can be found at: <a href="https://techreg.sc.egov.usda.gov/RptStateContact4Admin.aspx">https://techreg.sc.egov.usda.gov/RptStateContact4Admin.aspx</a>.
- Certified TSP's should submit the completed checklist, hardcopy and electronic copy
  of the client's plan to the local NRCS Field Office or appropriate State TSP
  Coordinator for administrative review.
- NRCS Staff should complete the checklist for administrative review and place the
  completed checklist in the client's file. Administrative review involves a review of the
  content of the plan to ensure all required elements are present, but does not involve
  technical review for correctness. (Please Note: If technical review is needed, the
  completed checklist and client plan should be forwarded to the appropriate State
  Office staff or NHQ for technical review.)

Please Note: Should a State not have the technical specialist to conduct the technical review, requests can be submitted (by the State Office) to NHQ for review. For NHQ review please submit the complete plan and checklist by mail or email to the TSP Team. See below for address information.

Forest Management Plan							
Sta	te/County:	Date Plan Submitted:					
Pro	ducer/Owner:	Technical Service Provider:					
add	• • • • • • • • • • • • • • • • • • • •	site specific plan developed for a client, which ns on land where forestry-related conservation d applied.
