

JOB HAZARD ANALYSIS EXPLANATION

FORM EXPLANATION AND INFORMATION

PURPOSE/PROCEDURE:

- This form serves to identify the risks or hazards of a specific task on a Power project as well as the process for eliminating or controlling those hazards. The analysis of hazardous tasks on a jobsite will assist workers and management to understand the associated risks.
- This form is typically prepared by the competent person responsible for performing the tasks identified. The Job Hazard Analysis is required prior to the start of any hazardous task(s) for both Power and subcontractors. This document is only a guideline and therefore not all-inclusive; a second page is available if more space is needed.
- JHA's are to be reviewed with employees as part of the training process.
- Completed JHA's are to be stored in the weekly safety file / with the site specific safety plan.
- Any questions related to this procedure should be directed to Power's Safety Department.
