PRACTICAL SCORE = (Total RRS score divided by number items completed times 11)+(Total Other)

Practical Skills Score total = _____ (Maximum = 100 Minimum = 80)
 Example: If an applicants total score for the Boathandling Skills Section is 68 and his total score for the Rescue Race Support skills Section is 16 and he accomplished eight skills, his/her total score would be $16/8 \times 11 = 22 + 68 = 90$.
