If prescribing a formula for a woman or child 1 year or older, what type of milk do you want WIC to provide?

Whole milk 1% lowfat or fat free milk 2% reduced fat milk No milk

Any special instructions or additional restrictions: _____

Must have office stamp or complete practice address and phone number

Print Name

Phone Number

Signature of Physician, ARNP, or PA

Date

Dear Health Care Provider:

Thank you for your continuing support of the Florida WIC Program. WIC supports the American Academy of Pediatrics' Statement on Breastfeeding and the Use of Human Milk. WIC encourages mothers to fully breastfeed their babies for about 6 months, followed by continued breastfeeding as complementary foods are introduced, with continuation of breastfeeding for 1 year or longer as mutually desired by mother and infant. Local WIC agency staff can assist WIC mothers with breastfeeding or make appropriate referrals.

The Florida WIC Program provides a limited number of milk-based and soy-based formulas for WIC infants who are not fully breastfeeding. (See list of WIC contract formulas below.) The use of federally mandated competitive procurement for standard infant formulas has allowed the program to purchase formula at a greatly reduced cost. Use of the WIC contract formulas provides additional funds for the Florida WIC Program to serve more pregnant, breastfeeding, and postpartum women; infants; and children.

Completion of this form is not needed for infants under 12 months of age to receive a WIC contract formula.

WIC contract standard infant formulas are the following formulas: *Note: All contract formulas have DHA and ARA.*

Enfamil Newborn milk-based formula, 80:20 whey-to-casein ratio, with increased vitamin D per ounce (400 IU vitamin D in 27 oz)

Enfamil Infant milk-based formula, 60:40 whey-to-casein ratio (400 IU vitamin D in 34 oz)

Enfamil Gentlease partially hydrolyzed milk-based formula, 60:40 whey-to-casein ratio, 20% lactose

Enfamil Reguline partially hydrolyzed milk-based formula, 60:40 whey-to-casein ratio, 50% lactose, and a blend of two prebiotics--galacto-oligosaccharide (GOS) and polydextrose (PDX)

Enfamil A.R. thickened milk-based formula, 20:80 whey-to-casein ratio

Gerber Good Start Soy partially hydrolyzed soy-based formula

For ages 9 months and older, the following contract formulas are also available:

Enfagrow Toddler Transitions milk-based formula, 20:80 whey-to-casein ratio

Enfagrow Toddler Transitions Gentlease partially hydrolyzed milk-based formula, 60:40 whey-to-casein ratio, 25% lactose

Gerber Graduates Soy partially hydrolyzed soy-based formula

This form must be completed with a qualifying medical condition for infants to receive a formula other than a contract formula OR for children 12 months and older or women to receive either a contract formula or another formula.

WIC Program Policy for Formulas Other than the Contract Formulas

- By completing this form, you are indicating that a diagnosed qualifying medical condition necessitates the use of a different formula(s) from the current contract formulas. The local WIC clinic cannot consider the requested formula(s) without all of the required information.
- Substitution of another formula will only be considered if it meets the qualifying medical conditions as described below.
- Requests are limited to 6 months. It is our policy to re-evaluate the client's continued need for the formula(s) on a periodic basis during the requested time period.
- In some cases, incomplete or limited medical information may prevent the approval of the formula(s) requested. In order to expedite the approval process, WIC staff may need to contact the health care provider who requested the formula(s) to obtain more detailed medical information. Complete contact information is required on the front of the form.

Qualifying Medical Conditions – formula approvals will be considered for one or more of these reasons:

- **Premature birth** will be considered a qualifying medical condition for infants under 12 months of age to receive a premature formula.
- **Low birth weight** will be considered a qualifying medical condition for infants under 6 months of age to receive a high calorie formula.
- Inborn errors of metabolism and metabolic disorders.
- **Must** specify gastrointestinal disorder or malabsorption syndrome that impairs ingestion, digestion, absorption, or utilization of nutrients that could adversely affect nutritional status.
- GER or GERD **only** with an additional qualifying medical condition.
- Immune system disorders.
- **Must** specify life threatening disorders, diseases, or conditions.
- An extensively hydrolyzed formula or amino acid based formula can be provided for a diagnosed formula intolerance or food allergy to lactose, sucrose, milk protein, or soy protein.
- **Failure to Thrive** **only** when child is documented with one or more of the following: at or below 5th percentile weight-for-length on WHO growth charts for ages under 24 months **OR** at or below 5th percentile BMI-for-age on CDC Growth Charts for ages 24 months and older **OR** has dropped one growth channel in a 6-month time period which results in the child being below the 25th percentile weight-for-length or BMI-for-age. Current anthropometric data required.

Non-qualifying Conditions – formulas will **not** be approved solely for one or more of these reasons:

- Colic, spitting up, gassiness, or fussiness.
- Diarrhea, vomiting, or constipation that is of short duration or intermittent.
- Feeding difficulty without giving medical diagnosis.
- Medically necessary without giving medical diagnosis.
- Participant preference.
- Enhancing nutrient intake or managing body weight.
- Non-specific formula or food intolerance.

A standard milk-based or soy-based infant formula (other than the WIC contract formulas listed above) cannot be provided to a WIC participant for formula intolerance or food allergy to lactose, sucrose, milk protein, or soy protein.

No type of formula can be provided to a child or woman with lactose intolerance who is able to drink lactose-free milk.

If you have a question about a specific formula, please contact your local WIC office or the Florida WIC Program at 1-800-342-3556.

The U.S. Department of Agriculture prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov. Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339; or (800) 845-6136 (Spanish).
