

Dear Parents/Guardians:

Geneva Community Schools participates in the Integrated Pest Control Management Program for each school facility. This program uses a variety of non-chemical pest control methods as well as limited use of pesticides, when needed, to reduce pest infestations and to minimize children's exposure to pesticides. The main strategy for this program is to remove any source that attracts pests.

In the rare situation where a pesticide, herbicide, insecticide, or rodenticide would be used, we will give notice to anyone requesting information about the application. To be included on this registry, please complete the form below and return it to:

Geneva CUSD 304
Central Administration Building
227 N. Fourth Street
Geneva, IL 60134

Please contact the Geneva CUSD District Office if you need further information at (630) 463-3000. Thank you.

I would like to be notified two days before the use of pesticides at (circle your child's school(s) listed below).

Geneva High School	Geneva Middle School North	Geneva Middle School South
Fabyan Elementary School	Harrison Street School	Heartland Elementary School
Mill Creek Elem. School	Western Avenue School	Williamsburg Elementary School

I understand that if there is an immediate threat to health or property that requires treatment before notification can be sent out, I will receive notification within a reasonable time frame.
