There are significant elements of risk in any adventure sport or activity associated with a “rock gym”: climbing wall, bouldering area, rock climbing, and/or incidental weight and fitness training regimens and equipment (referred to here as the “ACTIVITY”). We have taken reasonable steps to provide you with appropriate equipment and/or skilled instructors so you can enjoy an activity at which you may or may not be skilled; however, we wish to remind you the ACTIVITY has foreseeable and unforeseeable risks and certain risks cannot be eliminated without destroying the unique and exciting character of the ACTIVITY. The same elements that contribute to the unique and exciting character of the ACTIVITY can be causes of serious injury to persons, death, and/or loss of or damage to equipment and can occur by accident, through negligence, or even intentionally. It is important for you to know in advance what to expect and to be informed of the inherent risks.

**PARTIAL LISTING OF RISKS.** Some, but not all of the risks, foreseeable or unforeseeable, associated with the ACTIVITY follow:

1. Slips, trips, falls and/or collisions while using the climbing walls, bouldering areas, landing pits, work-out areas, floors below climbing walls, bathroom facilities, stairs, exits and entrances, and other facilities or equipment existing now or in the future;
2. Misuse of equipment or facilities, or failures of equipment and facilities, including but not limited to: loose or damaged holds, worn or defective ropes, and worn or defective safety devices;
3. Your physical strength, coordination, sense of balance, and ability to follow or give directions while climbing, belaying, or working out;
4. Abrasion from or entanglement with ropes or equipment; and
5. Bad decision making by you or your belayers, and the presence, actions (including mistakes), or falls of other climbers, belayers and observers.
