Information Networking Institute (INI) Graduate Programs, Carnegie Mellon

Graduate School of Applied Informatics, University of Hyogo

University of Hyogo in Kobe, Japan, and the Information Networking Institute (INI) offer a two-year, dual degree program. The program prepares students to become leaders in information security by blending education in information security technology, business management and policy, in addition to providing a unique cultural perspective. The curriculum provides background, insights and both general and technical coverage of key elements of information security, while equipping students with the analytical methods and management practices to succeed as managers and technologists in the growing and rapidly changing field of information security.

Deadline for submitting all application materials is December 27 for Dual-Degree applicants.

This section is to be read and completed by the applicant

Family Education Rights and Private Rights Act of 1974 (FERPA)
Under the provisions of this act, you have the right, if you enroll at Carnegie Mellon University, to review your educational records. The act further provides that you may waive your right to see recommendations for admission. By checking the appropriate box and signing your name below, you will indicate whether or not you wish to waive this right.

☐ I waive any right of access that I may have to this recommendation form.
☐ I do not waive any right of access that I may have to this recommendation form.
