The vision is that: York aspires to be a City whose special qualities and distinctiveness are recognised worldwide. The Local Plan aims to deliver sustainable patterns and forms of development to support this ambition and the delivery of the city's economic, environmental and social objectives. This will include ensuring that the city's spaces and archaeology can contribute to the economic and social welfare of the community whilst conserving and enhancing its unique historic and natural environmental assets. The plan will ensure that the vision and outcomes are delivered in a sustainable way that recognises the challenges of climate change, protects residents from environmental impacts and promotes social inclusivity.
