

Present a patient in 3 minutes or less

Many students use a template to help structure their H&P's. This one is tailored to help you create a focused, concise and complete EM presentation. When presenting, follow the dots.

Student:	Attending:	Date:
----------	------------	-------

Always start with the patient's chief complaint and age

1 CC:	<i>List 5+ bad Dx for that CC</i>	Place Patient Sticker Here	
Pt Age:	1.		
	2.		
<i>Initial VS (circle abnormals)</i>	3.		
BP	HR		4.
RR	Sat		5.
Temp	Wt		

Concise History and Physical

2 Give a good description of the CC	3 Hx: present <u>only</u> what is pertinent to DDx	5 PE: present <u>only</u> what is pertinent to DDx
• Character		
• Onset		
• Location		
• Duration		
• Radiation		
• Exacerbators		
• Alleviators		
• Diff today		

4 Important Past Historical Facts		
PMHx:		
PSHx:		
Meds:	6 What do you want to order and why?	
Allg:		
Smokes? Drugs? EtOH?		
PMD:		

Results (of labs & imaging, consultants, etc)

Final Diagnosis:	<i>Full Admit? 23h Admit? ED Obs? Discharge Transfer</i>
------------------	--

Feel free to give this page to your attending if it helps them write up their chart later. If you they do take it from you, they owe you feedback on your documentation. So provide your email for them below.
