Date Meter to be installed by

All water meters shall be furnished by and remains the property of the Utility and shall be accessible and subject to its control. The customer shall provide meter space to the company at a suitable and readily accessible location and when the company considers it adequate and proper space for the installation of meters and other similar devices.

The portion of the Customer's installation for water service shall be so arranged that all water service shall pass through the meter. No temporary pipes, nipples or spaces are permitted and under no circumstances are connections allowed which may permit water to by-pass the meter or metering equipment.

Connections to the Utility's water system for any purpose whatsoever are to be made only by employees of the Utility. Unauthorized connections render the service subject to immediate disconnection without notice and water service will not be restored until such unauthorized connections have been removed and settlement for estimated services are paid in full to the Utility.

Water service purchased from the Utility shall be used by the customer only. The customer shall not sell or otherwise dispose of the water service provided by the Utility. In no case shall a customer extend lines across a roadway or property line in order to furnish water to an adjacent property through one meter even though such adjacent property maybe owned by the customer. In case of an unauthorized extension of service is identified, customer's water service shall be immediately discontinued until full payment is made to the Utility for consumption fees and extra expenses incurred for clerical work, testing, and inspecting.
