

The Western Mass Recovery Learning Community (RLC) creates conditions that support recovery at both the individual and community level, through trauma-sensitive peer supports and the development of a regional network.

We believe that human relationships are at the center of what heals people who have experienced extreme emotional states, trauma, mental health diagnoses and a variety of other challenges in life.

Our lived experience and “humanness” is what unites us.
 Our stories, collective wisdom and strength is what guides us and our community to wellness.

House Restores the RLC Budget!!!

In early March, Governor Baker released his budget proposal for Fiscal Year 2016 (which begins officially on July 1, 2015). That budget included a 50% slash to Recovery Learning Community (RLC) budgets across the state, leaving the RLCs decimated. Since that time, the RLC community has come together to rally and advocate for full restoration

On Wednesday, April 15, the Massachusetts House of Representatives officially released their proposed budget for Fiscal Year 2016 (which begins on July 1, 2015).

We're thrilled to report that the House's proposal included full restoration of the RLC budget!!!

This is GREAT news. However, the fight isn't over yet. The next step is for the Massachusetts Senate to develop and put out a budget proposal in May, and we want to make sure that the Senate also includes full restoration to the RLC.

So, what next?

First, we are encouraging everyone to THANK our Representatives and their aides! We are so appreciative that they took the time to meet with so many of us, read our e-mails, take our phone calls and consider our concerns and point of view. Many representatives took the time to come visit our centers, attend hearings and listen to testimony, and even speak up in support of us in public forums in some instances.

Next, we need to keep up the outreach (phone calls, e-mails, in person meetings) with our state Senators and ask them to do the same.

Please see page 8 for suggestions on what to say to both Representatives and Senators.

And thank you to all of YOU who took the time to write letters, make phone calls, and come out to hearings and the April 1 rally. We would NOT be here without you.

ECT Protests Sweep The Nation

Many people who have experienced Electro Convulsive 'Therapy' (ECT, also known as Electroshock) have reported a variety of negative impacts, from memory loss and other cognitive damage, to loss of personality and so on.

Perhaps even more importantly, many people report not having been provided with accurate, objective, and *complete* information on the potential harms and risks of ECT *before* they consented to receiving it.

Still others report providers being quick to suggest ECT (rather than using it as a last resort) and/or having ECT forced on them through the same mechanisms used to force medication.

May 16 has been called an international day of protest. Mindfreedom International, Psychrights.org and many other organizations and individuals are joining together to demand that this practice (both ECT itself and how it is currently being used) be changed.

Excerpts from ISEPP's website

(www.psychintegrity.org): The International Society for Ethical Psychology and Psychiatry, Inc. (ISEPP) is a non-profit volunteer organization of mental health professionals, physicians, educators, ex-patients and survivors of mental health system, and their families.

Our mission is to use the standards of scientific inquiry to address the ethics of psychology and psychiatry. We strive to educate our members and the public about the nature of "mental illness", the de-humanizing and coercive aspects of many forms of mental health treatment, and the alternative humane ways of helping people who struggle with very difficult life issues.

At the heart of our critique is the fact that "mental illnesses" are not literal illnesses like diabetes and cancer. Despite media portrayals, decades of research have failed to demonstrate any biological pathology that causes "mental illness".

The experience of "mental illness" is a natural human reaction to extraordinary and painful life circumstances. We advocate various forms of psychotherapy, support groups, self-help programs, and help with employment, education, housing, exercise, nutrition, and other issues of living.

Sometimes the biggest form of help comes from just knowing you are not abnormal and there are others willing to listen to you, understand what you are going through, and appreciate you as a fellow human being. The only way to restore one's humanity is through humanity.

- Are self-driven and motivated to reach project goals

Grants will be for around \$2000 (some a bit less, some a bit more, depending on the details of the project itself and funds available!)

Dear Senator _____,

Sample e-mail to Senators

As your constituent, I am writing you from (Street Address and Town).

A 1.7 million cut to the Recovery Learning Communities' budget was proposed by Governor Baker for Fiscal Year 2016. This cut to the Adult Community Mental Health Services line item would slash funding for the state's six Recovery Learning Communities by 50%. This cut is listed in the sub-accounts of the Adult Mental Health Services appropriation (5046-0000) which was reduced overall by \$6,424,773 (\$1,734,000 of which is from the RLCs).

On Wednesday, April 15, the House announced that their budget proposal *included full restoration of the Recovery Learning Community budget*. Today I am asking you to advocate that the Senate Ways and Means Committee do the same by ensuring that the Recovery Learning Communities are funded at no less than their full 3.468 million in the Senate proposal as well.

Recovery Learning Communities support thousands of people each year to avoid hospitalization, search for work and housing, address substance abuse issues and find meaningful roles in their communities. Recovery Learning Communities save tax payers hundreds of thousands of dollars by reducing 911 calls, emergency room visits and hospital stays.

Recovery Learning Communities offer essential supports. They are the only supports funded by the Department of Mental Health that are easily accessible without wait lists or a referral or eligibility process. Every citizen of Massachusetts in need of immediate support can get help at a Recovery Learning Community.

The \$3.468 million dollars that currently funds Recovery Learning Communities is less than one half of one percent of the Department of Mental Health current budget of \$735 million. Any cut to this already very small budget would be hard to manage, but a 50% cut would literally devastate the Recovery Learning Communities' ability to function.

Sincerely,

Your Name

Sample call to Senators

My name is _____ and I am a constituent who lives in _____.

I am calling because the Massachusetts Recovery Learning Communities are fighting for full funding of their \$3.4 million budget following the Governor's proposal to cut Recovery Learning Communities budget by 50% (\$1.7 million). This cut is listed in the sub-accounts of the Adult Mental Health Services appropriation (5046-0000).

On April 15, the House announced that their budget proposal included full restoration of the Recovery Learning Community budget. I am asking for Senator _____ to go to the Ways and Means Committee and advocate that the Senate also propose full funding of the Recovery Learning Communities' at no less than \$3.468 million budget.

Sample Statement to Representatives:

Thanking those who have already shown support is a hugely important part of the process!

Dear Representative _____,

On April 15, the House released their budget proposal which included full restoration of the Recovery Learning Communities' budgets.

I just want to thank the House for their support of the Recovery Learning Communities, and you for any role you may have played in that. [If you know of any particular role the Representative played, be sure to name that here!]

Please let me know if there's anything I can ever do to support you in return.

Sincerely,

Your Name

If you saw Eleanor Longden's talk, you heard her speak at length about the idea of supporting someone to create a 'construct' in an effort to understand and make meaning of their voices.

- Validating the experience and overcoming the shame of talking about voices
- Offering space and support to systematically map all aspects of the voices and build insight
- Empowering the individual by promoting acceptance and the opportunity to take charge

This training is particularly geared toward clinical workers and other supporters. Cost is \$190 for all three days (scholarships & reduced rates are available).

Are there any opportunities to be outside at Afiya now that the weather is warmer?

Absolutely! Afiya offers a large back yard with a picnic table and various places to sit. We also have other recreational supplies (volleyball net, etc.) for those who wish to take part in something more active.

Additionally, we're pleased to share that we have big plans for an Afiya garden this year. Our garden plot is bigger than last year, and we're hoping to plant kale, beans, zucchini, cherry tomatoes and hot peppers. People staying at the house are more than welcome to get their hands dirty and help with weeding, planting, and harvesting!

We also welcome donations for the outdoors including: Gardening supplies, adult-sized hula hoops, and other recreational items. We're also saving up to be able to build a fence (to increase the sense of being in a healing oasis!) and install a gazebo. Monetary donations can be made at our website (www.westernmassrlc.org - just look for the PayPal "Donate" link along the left hand side!) or to the Western Mass RLC at 187 High Street, Suite 202, Holyoke, MA 01040.

ADDITIONAL PEER COMMUNITY RESOURCES

The resources below are listed by area and include peer supports in all four counties of Western Massachusetts as well as some statewide resources like warmlines, the Certified Peer Specialist Program (CPS) and other RLCs. THESE ORGANIZATIONS, GROUPS, MEETINGS AND WORKSHOPS ARE NOT RUN, SPONSORED (unless otherwise noted) OR OVERSEEN BY THE RLC IN ANY WAY. The RLC includes these resources for your information and personal use. Inclusion on this list does NOT necessarily mean that the RLC is attesting to the values or quality of any group or organization listed. Rather these resources are included based on the belief that there is strength in connection and the creation of a network of supports, in having and knowing your choices and in understanding that different supports work for different people.

**Inevitably, some of these resources will be out-of date.
We do work on keeping them all accurate, but it's always best to call ahead
