DATE

Office of the Governor
Street Address
City, State Postal Code

To: The office of Governor (name):

I am writing to personally thank you for proclaiming May Ehlers-Danlos Syndrome Awareness Month.

Ehlers-Danlos Syndrome is a heterogeneous group of heritable disorders of connective tissue involving collagen mutations characterized by variable hypermobility issues, skin extensibility and tissue fragility. There are six major types of Ehlers-Danlos Syndrome with symptoms depending on sub-type. All types of EDS are under-diagnosed, an estimated 60-70% of the deadly Vascular, Ehlers-Danlos Syndrome are undiagnosed. The lack of adequate diagnosis negatively impacts quality medical care. With improved awareness we can enable sufferers to receive proper care, reducing injury and premature death

The increased awareness and fundraising opportunities allowed by this proclamation can help save lives and improve the future of (your State) citizens with Ehlers-Danlos Syndrome.

Sincerely,

Signature
