Nilit are a global leader in polyamide 6.6 production and we are focused on delivering high quality products and innovation to our customers around the world. We have a wide range of innovative fibers under the Nilit® EcoCare brand name, check out our website <http://www.nilit.com/fibers/brands.asp> or call one of the contacts detailed at the bottom of this page.

Using the Nilit EcoCare® brand could not be easier, just follow the 4 easy steps: -

1. Fabric developed with Nilit® EcoCare products should be submitted for testing using the form on the back of this document to our certification test laboratory.
2. We will confirm in writing the results of the certification testing, and if the fabric meets the Brand Certification Requirements detailed below, a unique reference number will be provided with the approval certificate.
3. The fabric mill can then identify their fabric samples as Nilit® EcoCare and garment manufacturers can request free hangtags by quoting the unique fabric approval reference number. Applications for hangtags by garment makers can be made directly on our Internet site <http://www.nilit.com/fibers/hangtags>
