BTNIC Internet Address Request Form

This form is to be used by organisations requesting address space for their own internal use e.g within branches, departments etc., directly connected via an internal(perhaps publicly accessible)network.

1. **Network Details**
   Netname(one word descriptive name for the network for our administration purposes)

   _____

   Description (short description of organisation)

   _____
   _____

   Email Address of person filling this form

   _____

   Date (dd-mm-yyyy)

   _____

2. **Admin Contact Details**

   Full name   _____

   Address   _____
                    _____

   Phone no   _____

   Fax   _____

   Email address   _____

3. **Technical Contact details**

   Full name   _____

   Address   _____

   Phone no   _____

Fax   _____

Email address   _____

4. **Technical Details**

Account Name (if you have been previously assigned)

_____

Host bits = h (where $2**h$ = Number of addresses required in two years)

_____

Can you support All 0's subnets (please put yes or no)

_____

Can you support All 1's subnets (please put yes or no)

_____

Can you support Supernets (ie aggregate multiple contiguous networks into a single routing Announcement)

_____

Can you support Subnets (ie separately route parts of a single routing prefix)

_____

Network plan (please use the format provided)

S=1	C=	O=	T=	I=	R=	
S=2	C=	O=	T=	I=	R=	
S=3	C=	O=	T=	I=	R=	

_____

_____

_____

_____

Where S: subnet number from 1 to x (depending upon your network)
       C: number of devices currently installed in that subnet.
       O: number of devices expected in one year in that subnet.
       T: number of devices expected in two years in that subnet.
       I: connected to the Internet(put Y for permanently connected , D for dial up,
         And N if not connected to the internet)
       R: remarks (logical name or function of subnet if any)

Please continue on an extra sheet of paper if required
