

Get Pump Smart

Introduction to Insulin Pump Therapy

Please join us for an educational event designed for individuals who use insulin to treat their diabetes. A Certified Diabetes Educator will discuss the features and benefits of insulin pump therapy.

Get straightforward answers to your questions in a friendly and casual setting for you and your family.

Advantages of insulin pump therapy:

- Lower your risk of severe hypoglycemia
- Lower A1c levels
- Better glucose control
- Reduce risk of long term complications
