PROJECT NO.: AC-NH-WB-STP-CMAQ-123-A(9224)N

Dear Mr. Doe:

Please be advised that on Friday, April 8, 2011, the Transportation Board awarded the SR 123 HOV Design-Build project to ABC Construction, in the amount of \$77,445,016. As stated in the SR 123L Design Build package (Page 33 of 511) and A.R.S. 28-7365.(G)5., a stipulated fee of two-tenths of one percent of the Department's estimated cost of \$89,311,000 (design and construction) shall be awarded to each proposer on the short-list who provides a responsive, but unsuccessful proposal. Your firm has met those qualifications.

If you agree to accept the stipulated fee of \$178,622, the Department reserves the right to use any ideas or information contained in your proposal. These rights apply to any contract awarded for the project, or use in connection with any subsequent procurement with no obligation to pay additional compensation to your firm. You may elect to refuse payment of the stipulated fee and retain any rights to your proposal and the ideas and information contained therein.

If you agree to the stipend, the Department requests your advanced approval to utilize your proposal prior to payment of the stipend (circle selection below). Please return your response to this office no later than Tuesday, May 10, 2011.

You may contact me at (602) 712-1234 or by e-mail ededicated@azdot.gov if you have any further questions.
