

Science & The Arts

Due to the economic climate, and the budget shortfall here in California, now more than ever our school is in need of funds to support vital programs like science and art enrichment classes.

Hacienda Environmental Science Magnet, a California Distinguished School, is dedicated to teaching students to explore the natural world around them. We have a unique one-acre outdoor classroom site featuring California native plants and pond communities. Along with standard curriculum, all students study science and art.

Studies have shown a curriculum that includes both science and the arts greatly benefits students academic careers and beyond. In order to continue providing these life enrichment programs, we are requesting donations for our upcoming Spring Fling Fundraising Event on April 26, 2014.

It's About Community

We appreciate businesses in our community that have helped us keep science and the arts available for our school. We will be holding a silent auction on April 26, 2014 at our school featuring goods or services donated by local business like yours. Any and all donations are much appreciated.

As a community, with your help, we will be able to continue inspiring science and arts programs such as Art Vistas, music, and science fieldtrips the kids look forward to and enjoy.

We thank you in advance for your contribution and continued support.
