POSITION DESCRIPTION:

SENIOR ACQUISITION AND ASSISTANCE SPECIALIST

I. BACKGROUND:

The USAID/Bangladesh Senior Agriculture Private Sector Advisor will support the implementation of high priority U.S. Government initiatives under the Mission's Economic Growth (EG) portfolio. The principal function is to support Feed the Future (FTF) programming and directly oversee implementation of activities to achieve measurable results in improving food security in Bangladesh through private sector engagement.

Bangladesh is the most densely populated country in the world, with 162 million people living in a land area roughly the size of Iowa. Demographic trends indicate this number will grow to around 220 million by 2050 with population growth threatening to outpace food production.

Furthermore, poverty, lack of access to agricultural land, and poor eating habits contribute to one of the highest under-nutrition rates in the world. Agriculture accounts for an estimated 48 percent of employment in Bangladesh, however, per unit yield for these crops is one of the lowest in the world.

Nonetheless, Bangladesh is progressing and the Mission's FTF FY 2010-15 strategies build on evidence-based experience, successes, and on-going agriculture, health, and Food for Peace programs. The FTF Bangladesh program is working to intensify staple crop production while simultaneously encouraging diversification into higher-value, nutrient-dense products in order to increase incomes along with the availability, accessibility, and utilization of nutritious food. This is complemented by programs

which undertake messaging to encourage dietary diversification and increased consumption of nutritious foods.

As the Mission begins shaping the next multi-year FTF strategy, highly specialized knowledge is needed to improve program development and implementation around private sector engagement for food security in Bangladesh.
