**Japanese High School Visits Wellington**

Each year students come from Bunri to study English and immerse themselves in American culture. They participate in daily ESL classes, go on field trips, and become part of an American family. American high school students from Wellington and schools around Columbus are invited to participate by volunteering during this two-week program.

The most rewarding aspect of getting involved with the Bunri High School visit is the opportunity to develop new friends. Sharing fun, appreciating differences and supporting each other in attempts to communicate encourage the growth of trust, humor and understanding between the Japanese students and their American friends and families.

Consider hosting a student and/or joining us as an American student volunteer. Students who have participated in the Bunri exchange describe it as one of the most enriching experiences of their lives! Call 324-8882 for more information.

The Wellington School is a co-educational independent day school for students in pre-kindergarten through Grade 12. Our students enjoy small classes with devoted faculty. This is a challenging academic environment with a college preparatory curriculum, and 100 percent of Wellington's graduates attend four-year colleges.
