

I AM TRAFFIC SAFETY

I work in a world of proof, but the last place I want to be is in court.
I need to be on the streets where I'm most useful to the community.
Help me find new technology that can help me save time and lives.

We hear you. Please join us for a Lunch & Learn Tech Session near you.

Who: Laser Technology, Inc.

What: An overview of the latest in traffic safety technology

When: June 5, 2013, from 10:30 a.m. to 1 p.m.

Where: Cabela's, 20200 Rogers Drive, Rogers, MN 55374

- Why:**
- Discover technology that effectively enforces speeding, aggressive driving and tailgating laws
 - Get hands-on experience with an array of different lasers
 - Learn tips on implementing public safety programs
 - Get a free lunch with chances to win door prizes

How: Register by completing the form below

Check out this compact laser to measure speed and map crash scenes.

RSVP - Limited Space - Reserve Now!
