Estimated project start date \_\_\_\_\_ Estimated project completion date \_\_\_\_\_

---

Hazardous Fuel Treatment will be done by:

At the direction of Sara Taddo Jones of Jones Forestry & Conservation

[www.jonesforestry.com](http://www.jonesforestry.com) or [www.sara@jonesforestry.com](mailto:www.sara@jonesforestry.com)

Alternative contractor or property owner

- Owners are responsible for ensuring contractors have knowledge of Gold Mountain's Hazardous Fuel Treatment Standards and Safety Requirements and that the contractor adheres to forestry regulations and the CA Environmental Quality Act.
  - Owners are responsible for determining if their contractor possesses the proper contractor qualifications, contractor licensing and proof of liability insurance for fuel reduction work of \$1,000,000 minimum.
  - Property boundaries must be identified and flagged by the contractor and the flags must remain in place until a final inspection is completed by the Registered Professional Forester.
  - To initiate a final inspection, contact Jones Forestry & Conservation via either of the e-mail addresses listed above. The property owner will be charged a minimal fee for the final inspection and determination if the completed work meets Gold Mountain's Hazardous Fuel Treatment Standards.
- 

To file this plan either sign-up on either Jones Forestry & Conservation websites listed above or return this completed form to:

Gold Mountain HOA  
P. O. Box 297  
Clio, CA 96106

Signature \_\_\_\_\_
