8.) a.) Has your mill been inspected, by an external inspector, for fire hazards? Yesb.) If yes, by whom and when?
c.) Are fire extinguishers readily available throughout the premises? Yes No
9.) Do you burn any waste material? Yes No
If yes, how is this supervised?
10.) How do you dispose of your dust and chips?
11.) Is a lock-out/tag-out program in operation? Yes Noa.) If yes, is everyone trained in the lock-out/tag-out program? Yes No
a. / il yes, is everyone trained in the lock-outrag-out program: Tes No
12.) Are laser beams used? Yes No
13.) Who is responsible for changing items such as chipper blades, head saw, etc.? (Give complete description of this phase of the operation including training.)
14.) Do you sharpen your own saws? Yes No
If yes, who is responsible for that duty?
15.) How often are work areas cleaned?
16.) Are all work areas adequately illuminated? (Describe)
17.) Are all work signs posted throughout the premises clearly marking all potential hazards?
Yes No (Explain.)
18.) How are the logs loaded on/off trucks?
19.) Do workers rotate jobs or do they do the same task every day?
20.) a.) Are employees required to have a physical before they are hired? Yes No
b.) Is drug/alcohol testing done? Yes No
21.) Please describe the use of the following safety equipment by employees in this operation:
Required Optional Not Used Please describe or explain any additional safety equipment you are using.
High top, steel toe boots Hard Hats
Two Way Radios
Gloves Safety Glasses
Hearing Protection Back Support
22.) Are First Aid Kits provided at the job site? Yes No Snakebite kits? Yes No
23.) a.) Is a telephone readily available at the mill? Yes No
b.) If no, how far is it to the nearest telephone?
