How to Apply for Rebates

1. Fill out the rebate application. Please note the Rules and Requirements section below. (All information needs to be supplied before a rebate check can be issued.)
2. Please submit the completed and signed rebate form to your account manager (if applicable), or send pages 1 and 3 along with paid, detailed invoices: by email to: BSC@xcelenergy.com (preferred), or fax to: 1-800-311-0050, or mail to: Xcel Energy, DSM Specialists, Business Solutions Center, P.O. Box 8, Eau Claire, WI 54702.

Rules and Requirements

Xcel Energy provides energy-efficiency rebates for the purchase and installation of qualifying interior lighting equipment in your new building, new addition to an existing building, or major renovation of an existing building. Additional lighting rebates, not listed on this application, may be available through our Custom Efficiency program that requires preapproval prior to project initiation and purchase of equipment.

Customer Qualifications

This program applies to customers with a valid Xcel Energy commercial account in our New Mexico electric service territory. Check the Xcel Energy Web site (xcelenergy.com/rebates) to verify eligibility. Residential customers – please contact Xcel Energy at 1-800-895-4999 to find out about residential energy efficiency programs.

Eligibility Requirements

- Rebate items must be installed on the Xcel Energy electric account listed on the application.
- All equipment must be new; used or rebuilt equipment is not eligible for a rebate.
- Equipment must meet specification requirements as found on page 4 and be purchased and operating prior to submitting an application for a rebate.
- Rebates cannot exceed 50 percent of the project cost (including equipment and labor). The minimum rebate is \$5.
- A signed application and detailed installation invoice(s) must be submitted to Xcel Energy **within 12 months of the invoice date**. Invoice(s) submitted must include itemized quantity, price, manufacturers' make and model numbers, and product codes for each material item and/or original equipment manufacturer (OEM) specification sheets. Please talk with your account manager or call our Business Solutions Center for additional date restriction details.
- **Invoices must be dated on or after April 1, 2010 to qualify for rebates.**
- Xcel Energy is not responsible for any lost, late, stolen, illegible, misdirected or postage-due mail. All completed submissions become the property of Xcel Energy and will not be returned. Warning – Fraudulent submission of form may result in federal prosecution for mail fraud under 18 USC sections 1341, 1342.
- Once completed paperwork is submitted, incentive payments are usually issued in 6 to 8 weeks. Xcel Energy will issue rebates in the form of checks, not utility bill credits.
- Equipment must meet the technical requirements listed in this application form. Xcel Energy reserves the right to refuse payment for products that do not meet the requirements.

- Xcel Energy reserves the right to inspect customer facility(ies) for installation of materials listed on this rebate application and will need access to survey the installed project. If the inspection finds that you didn't comply with program rules and standards, any rebate you have received must be returned to Xcel Energy.
- Xcel Energy's conservation rebate programs are subject to 60 days' notice of cancellation. The customer and contractor are responsible for checking with the Business Solutions Center at 1-800-481-4700 to ask whether or not the program is still in effect and to verify program parameters.
- Xcel Energy reserves the right to publicize your participation in this program, unless you specifically request otherwise.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to customers as a result of a contractor misrepresenting the program.
- Xcel Energy recommends Illuminating Engineering Society (IES) light levels.

How to Apply

Complete the application form for each installation address.

- Fill out and sign the Business Customer Information and Contractor Information (page 1) sections of the application form.
- Fill out the Lighting Equipment worksheet on page 3.
- Please include ballast information where applicable.
- Attach a copy of the paid, itemized invoice(s). Be sure that the quantity, unit price, and make and model number of each item appears on the invoice. See example invoice on page 5.
- Make a copy of this document for your records.
- Inadequate invoice documentation or incomplete/incorrect forms will delay the rebate payment.
- Submit forms to your account manager (if applicable), or email, fax or mail to: BSC@xcelenergy.com (preferred), fax: 1-800-311-0050, or mail: Xcel Energy, DSM Specialists, Business Solutions Center, P.O. Box 8, Eau Claire, WI 54702.

Warranty Information

Xcel Energy:

- a. Does not endorse any particular manufacturer, product or system design by offering these rebates;
- b. Will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates;
- c. Does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties);
- d. Is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
- e. Is not liable for any damage caused by the operation or malfunction of the installed equipment; and
- f. Does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program.

251W+		\$20.00	
25W Integrated Ceramic Metal Halide Lamps		\$15.00	
TOTAL REBATE			\$

Lighting Options

Prescriptive rebates are available for the commonly installed interior equipment listed below. If your project does not fit one of the descriptions below, it may still qualify for rebates. Please contact your Xcel Energy representative or the Business Solutions Center at 1-800-481-4700 for custom lighting project review prior to beginning the project.

A. Hardwired or Pin-Based Compact Fluorescent Fixtures

Rebates are available for new fixtures containing compact fluorescent lamps (CFLs). For fixtures that house more than one lamp, the rebate is based on the total fixture wattage. (i.e., one fixture that houses (2) 18W CFLs would be rebated as (1) 36W CFL fixture.

B. Screw-Based Compact Fluorescent Fixtures

Rebates are available for new fixtures containing compact fluorescent lamps (CFLs). Rebates are based on wattage per lamp, not total fixture wattage.

C. Low-wattage Fluorescent T8 Lamps

Rebates are based on the installation of 4-foot T8 lamps less than or equal to 28W. Rebate is based on the number of lamps.

D. High-bay Fluorescent T8, T8VHO and T5HO Lamps with High Efficiency Electronic Ballasts

Rebates are available for T8, T8VHO systems or T5HO systems as shown on page 3 of this application. Must include high efficiency electronic ballasts.

E. Hardwired Low Wattage CFL Plug-In

Rebates are based on installation of a 25W CFL.

F. Pulse-start Metal Halide Fixtures

Rebates are based on the installation of a pulse-start metal halide fixture.

G. Ceramic Metal Halide Fixtures

Rebates are based on the installation of a ceramic metal halide fixture.

This is an example of an invoice that would allow Xcel Energy to process the rebate application the same day it was received.

Itemized invoices are the key to fast processing of rebate forms.
